VOL. XXIV, NO. 55

GAINESVILLE, FLORIDA, SATURDAY, APRIL 13, 1907

TEN CENTS A WEEK

TAFT IS BOOMED BY LONGWORTH

Roosevelt's Son In Law Wants
Secretary for President.

His Opinion Is Personal

Longworth Says that Taft, in the eyes of the People, Typifies the Roosevelt Administration—Believes Taft Can Be Elected.

Cincinnati, O., April 12.—Congressman Nicholas Longworth returned home from Washington Wednesday. In an interview he declared himself in favor of the nomination of Secretary Taft as the republican candidate for president. He said that his opinion was personal, and that he was only for himself, but that he believed that Taft, in the eyes of the people, typified the Roosevelt administration. Mr. Longworth said: "The great question before the people in the next election, in my opinion, will be the approval or disapproval of policies as registered by legislative and executive branches of the government for the past eight years under the administration of President Roosevelt. It seems to me that after the president himself has no living man who so thoroughly typifies the spirit of Theodore Roosevelt as William H. Taft. His record has been without a flaw; his character is as unimpeachable as a judge's, and as an administrative officer he has been so distinguished as to have placed him in the ranks of the great men in the history of this country. I firmly believe that if the republicans of Ohio stand by William H. Taft, he can be nominated and elected."

Mont., April 11.—Senator Charles L. LaFollette, of Wisconsin, who returned here Wednesday night on the Great Northern, declared in a newspaper interview, for the nomination of Roosevelt. He said that if the railroads thought that to defeat the policy of the president by the nomination of some one antagonistic to him, they were going at it the wrong way.

"They will force President Roosevelt to be a candidate, if I am correctly informed as to the actions of the railroads and his associates," said the senator.

"Abusing the president will not help the cause of the railroads with the people, as after all, public sentiment is against this nation and antagonizing the president and questioning his motives will only bring Theodore Roosevelt's reputation into declaration not to run again and the race by way of vindication."

He would hardly be called a third place man during the first three years of his administration he was a success carrying out the policies of his lamented predecessor, and it was only during his present term, that he promulgated and carried out his own plans. President Roosevelt is entitled to another term, and the people are entitled to Roosevelt. The needed reforms he has inaugurated must be carried out, and he is the one man to do it. We must have Roosevelt again."

Madrid, April 12.—Serious results are likely because of the long-continued drought in Andalusia. The beet crop in Granada threatens to be a total failure, and fears are felt for the wheat crop in southern Spain. Scarcity and distress prevails in the afflicted section. Public prayers for rain have been offered in all the churches.

MAN AND WIFE GO TO ASYLUM.

Both Are Said To Be Incurable—Users of Morphine.

Atlanta, April 12.—Deputy Sheriff Stallings, transfer guard for Ordinary J. R. Wilkinson left for Milledgeville Wednesday to conduct Edward S. Bobo, a stenographer, and his wife, Mrs. Willie Bobo, to the state sanitarium.

Morphine is said to have dethroned the reason of the pair. They are respectively 32 and 27 years old. The witnesses before the ordinary were Dr. E. C. Cartledge and Mrs. R. H. Bobo, the aged mother of Edward Bobo.

Several efforts have been made to reclaim Bobo, and Dr. Cartledge had him confined in the Tower for that purpose. It was brought out in the investigation that Bobo's mind had been affected through several years' dissipation, his finally having become the slave to the morphine habit.

The wife took to morphine about four years ago, it was stated, and while here condition is not as deplorable as that of her husband, her mind was declared affected also. It is thought that a short confinement at the Sanitarium with the wholesome treatment given, will soon restore her to a normal state.

The couple during the past three years have been several times the ward of the charitable people of Atlanta. Later they have been with the aged mother of Bobo, who runs a boarding house in the factory district.

Dr. Cartledge related several attacks Bobo had made on his mother and wife when crazed under the operation of the drug.

Mrs. Bobo came from Birmingham, where she was married about seven years ago.

PLUMBER LEFT HOME WEEK AGO

Macon Man Is Strangely Missing and a Search Made.

Macon, Ga., April 12.—C. F. Simmons, a member of the Bibb Plumbing company, and one of the best known men of his profession, is strangely missing from his home in this city. He went to Valdosta more than a week ago and was to bid upon some heating work, but never returned. His wife and relatives have searched diligently for him at Valdosta, Cordele, Bufala and other points and they now fear foul play.

The books of the business which he had in charge have been found in splendid condition, and no reason for his disappearance can be assigned. His wife has returned to her former home in Cedartown, and relatives are still searching for the missing man.

Gave Up Self Voluntarily.

Commerce, Ga., April 12.—John F. Gober, who shot and killed Clete Sellers at Nicholson last Christmas morning, and for whom the governor had offered a reward of \$150, voluntarily surrendered himself to Detective Scott Jackson here at this place. He came to the home of his brother, Mr. R. P. Gober, five miles south of this place, and wrote Mr. Jackson a note, in which he stated he was ready to surrender and take the consequences. Mr. Jackson went immediately and brought him here, and this morning he took him before Judge C. H. Brand in Athens, where he gave bond for his appearance at Jackson superior court.

Six Hurt in Collision.

Danville, Va., April 12.—Six persons were injured in a head on collision between passenger train No. 14 of the Southern railway, running from Danville to Richmond, and local freight train No. 63 at Ringgold, 5 miles from here. The freight train was on a siding when the passenger, running at a moderate rate of speed, crashed into it, demolishing both engines. The engineer claims that the accident was due to the failure of his air pump to work. All of the injured were on the passenger train, and no one was fatally hurt.

Dead Body of Woman Found.

Chicago, April 12.—The dead body of Mrs. Sylvester T. Smith, wife of a wealthy retired railroad official, was found in Lake Michigan at the foot of Forty-Seventh street Thursday. Mrs. Smith is believed to have committed suicide, while temporarily insane.

CRUELTY CHARGE WAS SUSTAINED

Commissioners Find There Has
Been Unnecessary Whipping

IN SUMTER COUNTY CHAINGANG

Convicts Stripped and Whipped Because One Stole Five Cents Worth of Victuals—Negro Smoked a Cigarette Was Beaten Unmercifully.

Americus, Ga., April 12.—The county commissioners of Sumter, after investigating thoroughly the testimony of a dozen witnesses as to the alleged needless and cruel whipping of negro convicts on the Sumter chaingang, adopted the following resolution:

"We, the county commissioners of Sumter county, after a thorough investigation, find there has been unnecessary whipping by the whipping boss of the chaingang; we strongly condemn this conduct; will reorganize the force at once, and remove from the employ of the county every one who is, in our judgment, in fault."

The investigation resulted at the request of Judge Charles R. Crisp, of the city court, to whom charges of cruel treatment had been made in open court. Judge Crisp is satisfied with the result of the investigation, provided the promised reorganization takes place as soon as possible.

The investigation into the alleged mistreatment of convicts was thorough, and much of the evidence adduced sustained completely the charges made in open court by the convict, Gus Nelson.

Convicts were beaten for trivial offenses upon numerous occasions cited. One instance was the stripping and whipping of 17 convicts because one had stolen a tin bucket of victuals worth probably 5 cents in an effort to divulge the real culprit. Another instance was the stripping and whipping of Ed Brooks, until the skin blistered, the offense being that he smoked a cigarette during work hours and then failed to kneel down with the alacrity demanded by the whipping boss.

The evidence showed that convicts were properly fed and housed, but that whipping was unnecessarily severe, and doubtless the direct cause of recent numerous escapes from the chaingang.

The reportorial notes made of the investigation by the press representative were taken in charge before the investigation concluded, and are still in possession of the county commissioners, who depressed the request that detailed statements be withheld as unnecessary for publication.

Hearing Against Rates.

Kansas City, April 12.—The interstate commerce commission convened here Thursday to hear various complaints against the railway regarding freight rates. Among the cases to be heard are two filed by the Kansas City board of trade against the Burlington, Missouri Pacific, Santa Fe and Rock Island railroads, which are charged with imposing excessive rates on grain from points outside Missouri to Kansas City and also of maintaining an excessive reconignment charge of \$2 per car. The producers' pipe line company has also filed complaints against the Rock Island and other roads. It is probable that the commissioner will also hear the evidence in the "west bound rate" case. The latter is considered one of the most important cases ever brought before the commission.

Immense Coffee Crop.

Rio Janeiro, April 12.—It is estimated that the coffee crop will all be gathered by the middle of July. The amount of coffee produced is 26,000,000 pounds as against 18,000,000 up to the same date last year.

Torpedo Boats Badly Damaged.

Dover, England, April 12.—The British torpedo boat destroyers Colne and Falcon put in here Thursday morning, having been badly damaged in a collision off this coast.

TWO INJURED IN MACON FIRE.

Mattress Plant Was Burned, With a Loss of \$5,000.

Macon, Ga., April 12.—The Central Mattress Manufacturing company plant was destroyed by fire and W. T. Harper, an employee on the second floor, and another employee on the first floor were badly injured by an explosion resulting from lint and smoke accumulating in the press boxes.

The building was partially wrecked by the concussion, and Harper was knocked through a window to the ground below. The other employee was a negro woman, who also suffered from the concussion.

The flames rapidly consumed the plant, the building being on Elbert street, beyond the city limits. Firemen went to the scene and kept the flames from spreading. The loss will reach five to eight thousand dollars. Z. B. Holmes was proprietor of the plant. The loss is partially covered by insurance.

Barred from the Stage.

Rome, April 12.—Prince and Princess DeBroglie have been barred from the vaudeville stage here by the officials as a result of a row Tuesday night at Margherita hall. The row resulted from an interview with the prince in which he scored the local aristocracy for their ill-breeding. Following the publication of this interview the couple when they appeared on the stage, were vigorously hissed and the princess' voice was drowned by whistles and other noise-making instruments.

Steamer Brussels Goes Ashore.

London, April 12.—The Great Eastern Railway company's steamer Brussels went ashore in a dense fog off Harwich at 11 o'clock last night while outward bound for Antwerp. She remained fast all night long with about sixty passengers on board, but is not considered in danger. This is the third of the company's steamers to be in trouble recently including the Berlin, which was wrecked off the Hook of Holland, February 21, with the loss of over a hundred lives.

Wants American Machines Excluded.

Berlin, April 12.—During the discussion of the budget committee of the reichstag Thursday of the appropriation to purchase type writing machines for the military authorities Dr. Sudetum, socialist, introduced a motion providing for the exclusion of American machines "because of the prohibitive effect of the American customs duties on German goods." Herr Paasche, national liberal, first vice president of the reichstag, supported the motion.

England Will Help Spain.

Paris, April 12.—The Madrid correspondent of the Eclair says that he has knowledge that some of the main points of an Anglo-Spanish understanding were discussed by King Edward and King Alfonso at Cartagena. England, he says, will help Spain in the reconstruction of her fleet, and Spain will see to it that certain important naval positions do not fall into the hands of any other power.

Berlin, April 12.—According to the

Tagblatt it is reported in diplomatic circles here that an Anglo-Spanish alliance has been definitely concluded on the basis of Spain agreeing in the event of war, to place all Spanish ports at the disposal of Great Britain. England on her part is to give Spain her diplomatic support in all matters of foreign policy as well as financial support in the form of loans.

Cases Against Georgia Road.

Washington, April 12.—The interstate commerce commission has set for hearing in this city on April 18, the cases of the Enterprise Manufacturing company against the Georgia Railroad company and others, alleging discriminating rates on cotton from various southern points via Pacific Coast terminals to Shanghai and other points in China and Japan, and others.

Ogden Again Elected President.

Pinehurst, N. C., April 12.—Robert C. Ogden, of New York, Thursday was re-elected president of the conference for education in the south.

DIVISION DELAYS THAW VERDICT

Attorney Says Jury Stands Ten
For Acquittal

AND TWO STAND FOR MURDER

At 11 O'Clock Jury Entered Court to Request All Exhibits and To Have Some Evidence Re-Read So Jurors Could Act Accordingly.

New York, April 12.—At 11 o'clock Thursday morning the Thaw jury entered the court room to request all exhibits in the case and asked that the evidence of Meyer Cohen be re-read, which was done.

The testimony of Henry F. Blaise, who was also an eye-witness to the killing, was re-read to the jury.

The members of the Thaw family, the prisoner and the jurors as well show the terrible strain of suspense under which they are going.

The Thaw jury asked Justice Fitzgerald to be allowed to examine the following exhibits:

Plan of Madison Square Roof garden.

The letters from Thaw to Attorney Longfellow.

The Thaw will and codicil.

The Comstock letter.

Delmas' hypothetical question.

The testimony of James Smith was read to the jury.

Daniel O'Reilly, one of the prisoner's lawyers, who has been credited with a successful forecasting of the way the jury stood in the Nan Patterson case, said that the jury stood ten for acquittal and two for murder in the first degree.

FRUIT CROP NOT HURT.

Peaches Are Not Damaged to Any Great Extent.

Atlanta, April 12.—Reports from various sections of the state show that the fruit crop has not suffered any material damage on account of the recent cold snap. Early vegetables and other garden truck were blighted considerably, but on the whole the loss will not be heavy.

It is stated that the peach crop this year will be immense and growers are prepared to stand from 35 to 50 per cent either on account of the cold or from losses in shipment.

Many of the growers were of the opinion that the cold of Monday and Tuesday would greatly affect the crop and, in fact, it was reported from a number of points that the loss would be 50 per cent, but this on closer examination, is found to be an error. There is no material loss, according to reports.

Adairsville Peaches Unhurt.

Adairsville, Ga., April 12.—There has been no damage whatever to the peaches in this section on account of cold weather. Growers were quite apprehensive for a time, but they found that fruit was not damaged.

Drought Affects Crop.

Marshallville, Ga., April 12.—Owing to recent drought there was not more than a half crop on the trees when the recent cold snap came. It is not believed the loss, if any, will exceed 25 per cent.

No Damage Shown at Barnesville.

Barnesville, Ga., April 12.—Peaches, apparently, are safe in this section. The recent cold snap does not show any material damage.

Crop at Marietta Not Damaged.

Marietta, Ga., April 12.—The fruit crop was not seriously damaged about Marietta. The wind saved the fruit and the prospects are good for a large crop.

Adopted Director's Report.

London, April 12.—The shareholders of the Grand Trunk Railway of Canada at the semi-annual meeting Thursday unanimously adopted the report of the directors and re-elected the retiring members of the board. The president, Sir Charles G. Wilson, reviewed the accounts and the work accomplished in the various branches of the road.

THE SAFE BLOWERS SPENT NIGHT HERE

Men Who Robbed Green Cove Springs Bank Are in The City.

TO DUTON THIS MORNING

Will be Taken to the Mines of West End Today, and Will Begin Their Sentences of Fifteen Years Each Monday Morning.

State Convict Transfer Agent T. E. Bridges of Ocala is in the city.

Captain Bridges has in custody eight prisoners, convicted of various crimes in the circuit court of Olay county at the term just closed, and sentenced to various terms in the convict camp at Dutton.

The fact of Captain Bridges having eight prisoners en route to the mines is nothing singular, but when it is learned that four of them are white men, and men of considerable note as criminals, the matter assumes a different phase. These four men are Bolton, Riley, Bennett and Harvey, professional safe-blowers, who blew the safe at the Green Cove Spring Bank in February of the present year, secured a large amount of booty, made their escape, and were subsequently captured, after a desperate struggle, in which one of the men, Bolton, was seriously injured by a pistol ball.

The men were taken to Jacksonville, where they remained in the Duval county jail until a week ago, when they were returned to Green Cove Springs for trial.

The men pleaded guilty, and were sentenced to fifteen years each in the phosphate mines. They will begin the term of service at Dutton Monday morning.

The men spent Friday night in the Duval county jail, where they appeared contented. They seem possessed of a jovial disposition, and have promised to make the best of the situation, feeling really grateful that their sentence was five years less than they had anticipated.

The men will be taken to Dutton on the Atlantic Coast Line train leaving here at 11:40 o'clock today.

Mr. Ford As Conductor.

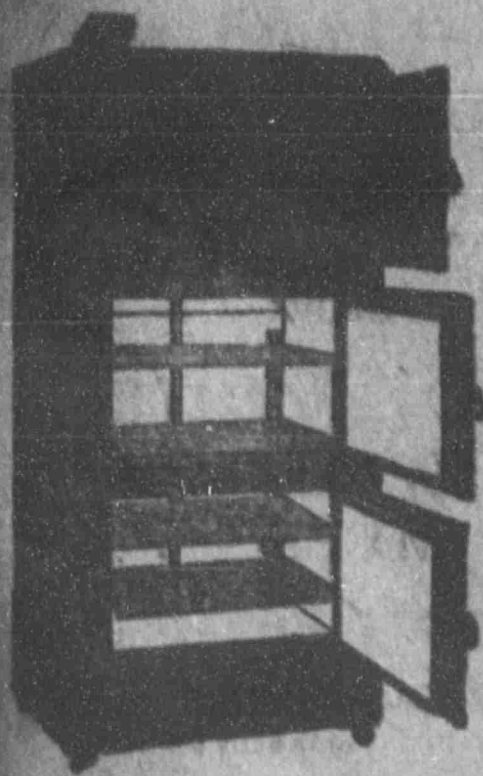

James H. Ford, formerly special agent of the Atlantic Coast Line, has resigned that position in order to accept a position as conductor on the Jacksonville and Southwestern division of the road. Mr. Ford, who has not been the best of health recently, made the change for the reason that he thought the same would probably be beneficial to him. His friends expect he will receive the desired result.

Heavy Rain At Hague.

James B. Dell, who owns and cultivates a magnificent farm in the Hague section, reported upon his arrival from that place Friday a heavy rain, severe enough to thoroughly drench the soil.

GAINESVILLE IS AGAIN VICTORIOUS

Judge Locke Makes Order Dismissing Bill in University Case.

LAST THREAD HAS VANISHED

When the Supreme Court of the United States, to which an appeal had been taken, sustained the decision of the lower court.

Again Lake City has been defeated in its attempt to compel the Board of Control to again establish the University of Florida in that town, from whence it was removed to Gainesville by order of the Board of Control, which, while no more was expected, will be gratifying information to the people not only of this city, but the entire State, with but few exceptions.

The story of the University and its troubles in this direction are so well known that it is needless to go over them again. However, the following from The Times-Union of the 12th inst. is self-explanatory:

"Judge James W. Locke, in the United States Circuit Court, yesterday handed down an order dismissing the bill in the suit of the City of Lake City vs. the State Board of Control, et al.

"This order marks the ending of the hard fight to stop the removal of the University of Florida from Lake City to Gainesville, a fight that has, at every turn, been marked by rulings favorable to Gainesville and adverse to Lake City.

"The fight began in the State courts and Lake City losing there, was carried into the United States courts. Here, as in the State courts, the Board of Control won, and the University of Florida remains at Gainesville, its present home.

"It is regarded as exceedingly unlikely that any further fight will be made to compel moving the University back to Lake City."

CARD FROM MR. PINKOSON.

He Expresses Thanks to Friends Who Stood by Him Last Tuesday.

To The Voters of Gainesville Who Supported Me in the Recent City Election:

I would like to express my thanks to you for your support. I feel that every vote that I received was by men who believed in the enforcement of the laws.

I am satisfied that my friends who elected me for city marshal four years ago have stood by me to the last. It makes me feel good to see that they know that I have stayed on the same side of the fence that the law and ordinances made, and that I have never tried to serve on both sides, by not enforcing the laws. You all know that I went into the office enforcing the laws and came out doing so.

Four years ago Alderman C. O. Pedrick asked me if I would enforce the impounding of stock if he should build a pound. I told him I would as near as I possibly could; so Mr. Pedrick built the pound and I kept my promise, which I feel proud of; and I know that Mr. Pedrick is not ashamed of it.

I also promised the ladies of Gainesville that I would do all in my power to carry out the law against the sale of whiskey. I did my very best, and I have captured a great many "blind tigers" or whiskey sellers (as they are called), and every one that I caught was convicted. I am sure that the ladies believe that I have carried out my promise as far as I possibly could.

Now, to say for the people who have violated the peace and moral ordinance, I have treated them all the same—the rich or poor, the white or black, regardless who he be. The jail house caught them all if they were too disorderly to accept bail of. I took no man to his home and put him in bed—I always had a spare room for him in the jail when he deserved to be there.

With a man for mayor like W. R. Thomas, always made me feel like doing my duty, because he played no favorites with anyone, all being dealt with as they justly deserved according to the ordinances.

I feel that my defeat is more honorable with the men who voted for me than to have been elected by those who opposed me. I have no apologies to offer to anyone.

I thank all my friends for what they have done for me in the past, and would be glad to stand by and be loyal to them. I have done what was right and my conscience is clear.

Respectfully,
CHAR. PINKOSON.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of
The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

CAPTAIN PAUL HOME.

He States That Farmers and Cattle Are Suffering in LaFayette.

Captain Antoine Paul, special agent of the United States land office, is at home again, after ten days spent in various sections of LaFayette county on official business.

Captain Paul states that in LaFayette, as everywhere else, the planters are suffering a great deal for rain. It has been the longest season of drought that section of the State has known for years. The planters have been seriously delayed in the sowing of their crops, and ponds and lakes have gone dry for the first time in the recollection of the oldest settlers.

The cattle are also affected, as they are dying in bogs in search of water, and altogether conditions in the sections visited are anything but favorable, with no indication or prospect of rain when he left.

THURSDAY'S WORK AT TALLAHASSEE

Both Branches of Legislature Were
Active During the Day.

MANY COMMITTEE MEETINGS

The Solons Are Pushing Matters Rapidly as Is Conservative—Many Important Bills Introduced in Both Senate and Lower House.

Thursday was another busy day at Tallahassee, the work of both branches of the Legislature showing considerable activity.

In the House Speaker Matthews signed his first bill, that of abolishing the present provisional government of the city of Pensacola, and providing a new municipal charter therefor.

A very strong delegation is here from St. Petersburg, Clearwater and Tarpon Springs, urging the passage of the bill introduced in the House yesterday by Mr. Decker of Hillsborough, establishing the new county, Pinellas, from that portion of Hillsborough known as the sub-peninsular. It is also said that the strong delegation here from Tampa is opposing this county division measure, but all rumors are not to be implicitly relied upon.

In the Senate the most interesting feature, of course, was the debate on the question of receding from the Senate Amendment No. 2, to the now famous House Concurrent Resolution No. 1. This was the first day of oratory in that body, both on this question and on that of requiring duplicate pleadings and so on filed in all cases.

Senate Proceedings.

Senate Concurrent Resolution No. 9 was introduced by Senator Hudson, providing for a committee of two from the Senate and three from the House, to investigate as to the feasibility of addition to the capitol, or additional buildings, and if such was feasible to report a bill covering the suggestions.

Senate Concurrent Resolution No. 10, by Mr. Cone, relative to appointment of committee to investigate the holdings of the State at Lake City, known as the former University of Florida, and with an estimated value of a quarter million dollars and to report to the Legislature by bill.

New Bills Introduced.

Among the new bills introduced were the following:

Senate Bill No. 146, by Mr. Trammell—Requiring commission merchants, etc., to make out and mail to consignee certain reports within a certain time from delivery and sale of such produce.

Senate Bill No. 147, by Mr. West of the First district—To make tax deeds prima facie evidence of title.

Senate Bill No. 148, by Mr. Crill—For protection of shad in Florida, to prescribe close season, etc., to regulate shipments and provide penalties.

Senate Bill No. 150, by Mr. Jackson, prohibits sale, barter or giving away cigarettes, cigarette papers, etc.

Senate Bill No. 152, by Mr. Alford, to amend general statutes, defining duties to State's attorney and fixing their salaries.

Senate Bill No. 153, by Mr. Crill, relating to guardians and authorizing the appointment of charitable associations as such guardians.

Senate Bill No. 154, by Mr. West of the Fourth, to amend general statutes relating to courts.

Consideration of Resolutions.
Under consideration of resolutions on second reading, Senate Concurrent Resolution No. 8, requiring the distribution of the acts relating to public roads, etc., to various county officials was adopted unanimously.

A message was received from the Governor transmitting the report of the commissioners to examine into the Indian war claims. On motion the message and report were ordered printed in the journal and 200 copies ordered printed.

A message from the Governor relative to monument of Florida troops on the Chickamauga battlefield and also committing resolutions adopted by the Florida division of the U. C. V. relative to this monument, and also for the publication of a revision of rolls of Florida troops, etc., was received, and ordered spread upon the journal. The Senate then adjourned until 10 a. m. tomorrow.

HOUSE PROCEEDINGS.

A communication was received from Hon. Frank Clark of Gainesville to the Hon. H. Dorman of Savannah,

See US

floor, woodwork
and furniture.

BAIRD
Hardware Co.
Phone 7

thanking the House for resolution of thanks for course in the peonage matter and condemning Barry and Hearst. On motion of Mr. Dorman it was spread on the journal.

Memorial from First brigade of Florida United Confederate Veterans, relative to establishment of a State department of archives and history, and for erection of a monument to Florida soldiers at Chickamauga, and a monument to the women of the South. On motion of Mr. Reese, of Escambia, it was spread on the journal.

Memorial from Paid Hatch Camp No. 1116, United Confederate Veterans, of Mayo, asking for bills relative to pension; spread upon journal.

House Bill No. 152, by Mr. Long of Clay, relating to assessment and collection of revenue.

House Bill No. 163, by Mr. Knight of Citrus, prohibiting sale or gift of cigarettes.

House Bill No. 164, by Mr. Griggs of Franklin, relating to vagrants.

House Bill No. 165, by Mr. Griggs of Franklin, costs in justice court.

House Bill No. 166, by Mr. Taylor of Gadsden, prohibiting intoxication in public; temperance.

House No. 167, by Mr. Register of Hamilton, payment of poll taxes.

House Bill No. 168, by Mr. Wilson of Hernando, relating to damage to stock by phosphate plants.

House Bill No. 174, by Mr. Crawford of Orange, changing marks of an animal.

House Bill No. 56, penalty for failure to transmit immediately messages, when resulting from negligence.

Senate bills and resolutions read and referred to proper committees. House concurred in Senate amendments to resolutions for committees to visit convict camps and insane asylum.

On motion of Mr. Rowe, of Madison, Senate Bill No. 144, to provide municipal government for town of Greenville, was passed under suspension of rules.

REAL ESTATE IS MOVING.

J. M. Patterson Has Purchased Handsome Home in North Gainesville.

Real estate continues on the move in all sections of the city, which is evidence that "there is life in the old town yet." The latest deal reported is the transfer of "Ingleside," the beautiful home owned and for many years occupied by Col. I. E. Webster and family, in North Gainesville, to J. M. Patterson, who removed with his family to Gainesville from Orange Heights several months ago. The property is among the most desirable in that favored section, embracing a neat seven-room house and ten acres of land.

Mr. Patterson and family already have possession, having removed to the place several weeks ago.

Makes Hair
Look Rich

TWENTIETH CENTURY CLUB.

Club Entertained at Elegant Home of Mrs. S. M. Davis Monday.

The meeting of the Twentieth Century Club held at the home of Mrs. S. M. Davis Monday, April 5th, was well attended, and fraught with unusual interest, for beside an attractive program supplied by members of the club and lead by Mrs. E. H. Craighill, there was an inspiring and interesting address by Mrs. Seaton, superintendent of that noble organization known as the Children's Home Society of Florida, which has been the means of rescuing from want and degradation forty-four children during the year past, most of whom have already been placed in good Christian homes. Nineteen of these little wards have been taken out of our own town. Hence another branch of work was taken up by the club, which now embraces beside literature, civics, reciprocity, art and music, education and libraries.

A patron membership into this children's home was taken by the club, as result of the deep interest inspired by Mrs. Seaton in her forceful talk.

The State Federation president, Mrs. C. H. Raynor, will visit the Gainesville club on or about the 22nd inst. to assist with her board and the Twentieth Century Club in formulating plans for the thirtieth annual convention of the Florida Federation of Woman's Clubs, which will be held here in November. This board, numbering five, will be entertained by members of the local club.

On April 2nd, at Mrs. C. A. Colclough's home, the club tendered a reception to their husbands and friends.

A delightful feature of the evening was a choice program of music, with a lecture by Dr. Ohas. Crow of the State University, all of which were enjoyed greatly.

The club colors, green and gold, were effectively used in decorating—the table being laid with white lace cloth over yellow satin and bordered with delicate green asparagus fern, while everywhere burned yellow candles in crystal candlesticks. The centerpiece on the table was a silver candelabra with yellow candles, surrounded by the feathery fern dotted with miriads of yellow pansies. From the chandelier above hung a large bunch of ferns with huge yellow roses. The refreshments, too, reflected the scheme in the Neapolitan cream and cakes. Delicious coffee formed the beverage need. The guests departed at 11 o'clock, after a very happy and profitable evening with the Twentieth Century Club.

The meeting at which the club expects to entertain the State president will be held April 22nd at the home of Mrs. G. K. Broome. REPORTER.

CURES ALL SKIN TROUBLES.

Sulphur the Accepted Remedy for a Hundred Years.

Sulphur is one of the greatest remedies nature ever gave to man. Every physician knows it cures skin and blood troubles. HANCOCK'S LIQUID SULPHUR enables you to get the full benefit in most convenient form. Don't take sulphur "tablets" or "wafers," or powdered sulphur in molasses. HANCOCK'S LIQUID SULPHUR is pleasant to take and perfect in its action. Druggists sell it.

A well known citizen of Danville, Pa., writes: "I have had an aggravated case of Eczema for over twenty-five years. I have used seven 50-cent bottles of the LIQUID, and one jar of your HANCOCK'S LIQUID SULPHUR OINTMENT, and now I feel as though I had a brand new pair of hands. It has cured me and I am certain it will cure anyone if they persist in using HANCOCK'S LIQUID SULPHUR according to directions."

"BUTLER EDGAR."

No Indication of Strike.

Paris, April 12.—Up to 11 o'clock Thursday morning, there was no indication that a strike movement had begun here. The stores were open as usual, but bicycle police patrolled the principal thoroughfares and the public buildings generally were guarded by detachments of infantry.

King Alfonso Returns to Madrid.

Madrid, April 12.—King Alfonso returned to Madrid from Cartagena on Thursday and was met at the railroad station by Queen Victoria, who was in remarkably good spirits.

No need to ask if you want your hair to look rich, healthy, and luxuriant. We know you do! Ayer's Hair Vigor, new improved formula, will give it just that appearance. An ideal hair dressing. Ask your doctor about it. We publish the formula of all our preparations. J. C. Ayer & Co., Lowell, Mass.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women.

For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life.

Records show that it has cured more cases of Female Ills than any other one remedy known.

Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use.

It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude. "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement.

For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

PEONAGE CHARGE SIDETRACKED

Alleged Peons May Leave the City for the East.

Atlanta, Ga., April 12.—The indictment against the Messrs. Cole, Zeigler, Brewster and others found by a United States grand jury last fall, in which peonage is charged, will, in all probability sleep in a pigeon hole in the district attorney's desk for some weeks to come.

During the trial of Messrs. Cole and those indicted jointly with them for conspiracy, it was generally thought that the defendants would be arraigned upon the older true bill as soon as the conspiracy case was disposed of, and the alleged peons who have been on the witness stand in the conspiracy case were being held in charge by an officer of the court, the foreigners passing the greater part of their time when not asleep in the corridors of the federal building with a deputy in close proximity at all times.

But Judge Newman announced that when the two criminal cases then on the calendar had been disposed of, the civil docket would be taken up, and would occupy the time of the court.

The attorney for the government, Messrs. Henley and Sheppard, were not inclined to admit an indefinite postponement of the trial, intimating that it might be called Monday.

The dismissal of the witnesses, however, would indicate the necessity of new subpoenas to bring them to court. It was asserted during the afternoon on Wednesday about the United States building, that many of the foreigners contemplated leaving for the east Wednesday night and on Thursday morning. Mr. Kinney, who figured extensively in the trial for conspiracy, announced his intention of leaving the city Wednesday night.

Charged with Conspiracy.

Denver, Colo., April 12.—E. W. Stobben, a mining engineer of this city, was arrested yesterday by federal officials in connection with the investigation by the government into the operations of the lost bullion Spanish Mines company. This is the company which claims to own a rich mine near Silver City, N. M., but which the government agents claim is nothing more than an old cave. This makes eleven arrests as a result of the efforts of the federal officials. Stobben is charged, like the rest, with conspiracy to defraud and using the mails for fraudulent purposes. He was released on bonds.

Eight City Blocks Burned.

New Orleans, April 12.—A special dispatch to the Picayune from Luteher, La., says that a fire which started on the second floor of a new building in the center of the town early Thursday morning, burned over eight blocks, destroying a number of stores and residences. The town is not thickly settled, and it is not thought that the loss will amount to more than \$60,000. The fire is believed to have been of incendiary origin. Luteher, which is a lumber town with a population of about 2,000 people, is in St. James parish about 40 miles from New Orleans.

Why suffer with pain when BALLARD'S SNOW LINIMENT WILL CURE

RHEUMATISM, CUTS, OLD SORES, SPRAINS, WOUNDS, STIFF JOINTS, NEURALGIA, SCALDS, ETZ.,

G. A. Friedel, Dallas, Tex. writes: "I use Ballard's Snow Liniment for my family. It is the best Liniment made. It relieves burns and scalds."

Rogers Arrested After Being Trailed Across Continent.

New York, April 12.—News of the arrest in Los Angeles, Cal., of Charles Henry Rogers, alias Charles Carpenter, charged with the murder of Willis Olney, Frederick Olney and Alice Ingerick at Middletown, N. Y., on October 6, 1906, has been received here. Rogers admits his identity.

Rogers is also charged with assaulting with intent to kill Mrs. George Ingerick. Rogers had worked as a motorman on the Middletown street railway. On the morning of October 6, Frederick and Willis Olney, prosperous farmers, were shot to death in the woods back of their farm about 4 miles from Middletown.

Mrs. Georgia Ingerick, their housekeeper, was found in the barn unconscious from a fractured skull and the body of her daughter, Alice, aged 9 years, was found in the cellar of the Olney home. Her skull had been fractured. Mrs. Ingerick's memory was so affected by the blows she received that she was unable for a long time to give any account of the attack upon her.

A private detective agency and the local authorities secured sufficient evidence to indict Rogers, but no trace of him was discovered until January last when he was located at Madera, Cal., but before a detective could get to the place he had departed.

Car Reported Attacked.

Montgomery, Ala., April 12.—The first reports of violence on the part of the strike sympathizers since the recent outbreaks at egging and shooting at cars of the traction company in the early opening of hostilities were last evening current on the streets to the effect that Gilbert Nichols and Philandine Rice, two white Montgomeryans, had bricked a car on the West End line. They were immediately arrested by the traction company's deputies, Messrs. Snyder and Curry, each of whom were afterwards released on board of \$250 bonds. Judge Bolling Young, Nichols waived examination, and Rice's hearing is due up on Saturday.

Chinese in Police Court.

Macon, Ga., April 12.—Police court was the scene of a Chinese puzzle in the form of half a dozen celestial subjects with an interpreter from Atlanta, to tell the court that George Lee, a stylish New York yellow man, had secured money under false pretense. Police officers, court and all, failed to secure the information wanted, and the man was released. He is said to have come to Macon to find out who had reported some recent gambling cases to the police. He was also said to have come to put up a laundry, and had secured money from the other Chinamen who hired him off.

Why

Have a torpid liver when Herbine, the only liver regulator, will help you? There is no reason why you should suffer from dyspepsia, constipation, chills and fever, or any liver complaints, when Herbine will cure you. F. C. Walto, Westville, Fla., writes: "I was sick for a month with chills and fever, and after taking two bottles of Herbine am well and healthy." Sold by W. M. Johnson.

McDonald in Critical Condition.

Huntsville, Ala., April 11.—Alex McDonald, the young white man who was shot on Saturday by the negro grave digger, T. Bolling Bynum, is in an extremely critical condition and his death is expected at any minute. His physicians do not believe it is possible for him to recover. Bynum has been placed in jail. McDonald has a wife and children and is only 25 years old.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

A PRACTICAL JOKER.

The Way Eugene Vivier Used to Set Paris Laughing.

Eugene Vivier, the horn player, "the most charming of men and the spoiled child of nearly every court in Europe," says Henry S. Edwards in his "Personal Recollections," was the man who said of Napoleon III, "He is the most gentlemanly emperor I know."

"What can I do for you?" said this gentlemanly emperor one day when Vivier had gone to see him at the Tuilleries.

"Come out on the balcony with me, sire," replied the genial cynic. "Some of my creditors are sure to be passing, and it will do me good to be seen in conversation with your majesty."

Vivier was a confirmed practical joker. Once while riding in an omnibus he pretended to be mad.

He indulged in the wildest gesticulations and then, as if in despair, drew a pistol from his pocket. The conductor was called upon by acclamation to interfere, and Vivier was on the point of being disarmed when suddenly he broke the pistol in two, handed half to the conductor and began to eat the other half himself. It was made of chocolate!

Vivier could not bear to see people in a hurry. According to him, there was nothing in life worth hurrying for, and, living on the boulevard just opposite the Rue Vivienne, he was much annoyed at seeing so many persons hastening toward 6 o'clock to the post-office on the Place de la Bourse.

He determined to pay them out, and for that purpose bought a calf, which he took up to his apartments at night and exhibited the next afternoon at a few minutes before 6 o'clock in the balcony of his second floor. In spite of their eagerness to catch the post many persons could not help stopping to look at the calf.

Soon a crowd collected, and messengers stayed their steps in order to gaze at the unwonted apparition. Six o'clock struck, and soon after a number of men who had missed the post returned in an irritated condition and, stopping before Vivier's house, shook their fists at him. Vivier went down to them and asked the meaning of the insolence.

"We were not shaking our fists at you," replied the enraged ones, "but at that calf."

"Ah! You know him, then?" returned Vivier. "I was not aware of it."

In time Vivier's calf became the subject of a legend, according to which the animal (still in Vivier's apartments) grew to be an ox and so annoyed the neighbors by his lowing that the proprietor of the house insisted on its being sent away. Vivier told him to come and take it, when it was found that the calf of other days had grown to such a size that it was impossible to get it downstairs.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The True Sportsman.
The true, the ideal sportsman has no environment, no center of distribution, no accurately defined geographic range. He lives in Balham or Belgravia. He is of the peerage or the proletariat. He is a general officer on the active list or a retired sergeant. He prescribes drugs in a rural dispensary or he soothes malades imaginaires in his consulting room in Harley street. He preaches in the village church or in the cathedral. His hat hangs in the hall of the castle or in the cottage porch. His income is fifty thousand a year or nothing. He rides a cob or a thoroughbred, shoots with his grandfather's hammer gun or with the newest of hammerless ejectors, fishes with a hazel rod cut at the waterside or with the latest thing in split cane, sails the summer seas in a half rater or in a Sunbeam. Sportsmanship, in short, is an instinct, a birthright, not a commodity. Any one may buy its appurtenances. No one can buy its temperament.—F. G. Aflalo in *Fortnightly Review*.

The Tuna a Mighty Leaper.

Exactly how high a tuna can leap it is difficult to say. I have seen the water beaten into a foam by them four miles distant and have a photograph showing a fish—a black streak, at least—a mile distant, high in air, a jump of certainly ten or fifteen feet and it is my opinion, based on what I have seen, that it is possible for a lusty tuna at full speed to project itself twenty feet into the air and thirty or forty feet in a horizontal direction. I judge the latter possible from the leap of a big tuna which cleared the kelp and landed high on the rocks at Santa Catalina. I have often stood in the center of a school of leaping tunas and watched them, but the situation is not one suggestive of repose or peace of mind.—Charles F. Holder in *Outing Magazine*.

Just Because

Your cough is only in the throat and does not trouble you now, don't think that it needs no attention. When it has not had much of a start is the time to check it. The slightest cough easily leads to pneumonia, bronchitis and consumption. A bottle of Ballard's Horehound Syrup will cure that cough. The price puts it within reach of all. Sold by W. M. Johnson.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self-sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisements could charge their space with profit.

ALACHUA COUNTY.

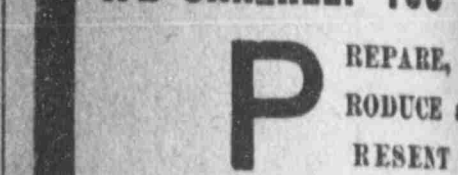

Alachua county is 806,400 acres area, has 245 miles railroad, 123 public schools, 27 post offices, 20 saw mills, 27 phosphate plants, 20 saw mills, 27 phosphate houses, four newspapers, and produces corn, cotton, rice, sugarcane, rye, potatoes, pineapples, oranges, peaches, pears, plums, and all kinds of vegetables.

Gainesville, the County Seat.

Has fourteen churches, two public schools, the University of Florida private schools, three newspapers, United States land office, the water, fire alarm system, electric and gas lights, two ice factories, machine shops, three wood factories, cotton gin, two moss factories, three railroads, two fertilizer manufacturing companies, one flour mill, one rectifying plant, two banks, and stocked stores embracing everything in the commercial line.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$2.50 a year; \$2.50 a month; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

According to the new city directory of Jacksonville that city now has a population of 57,657.

An esteemed contemporary wants to know when the tariff will be revised. See Statistician Hyde's statement as to how soon he would return from London.

An envious Boston paper wants to know "What has Bryan done?" Strikes as he has kept the Republican party in planks for their platform, among other things.

A newspaper has the headline "Silent Smith Joins the Majority." If he wasn't in the majority already with that surname, there is small hope for him in any other world.

Stuyvesant Fish says "President Roosevelt absolutely cannot see his own faults." Now isn't that a nice return for the things the President has been doing to Mr. Harriman.

President Smith of the Mormon Church is out in an interview strongly denouncing polygamy. The combination of high prices and the Easter season was entirely too much for the old fellow.

The Miami Record is now in its new home, a building designed especially for newspaper work. The paper has always done great work for Dade county and greater things are now expected.

And it has been discovered that a common negro scrub woman was the party who stole the seventy-three million dollars from the United States sub-treasury in Chicago. Who believes such a story?

Scientists announce that a milk-giving tree has been discovered in South America, but it takes an immense amount of water to make it flow. Just the way with milk-giving men in our part of the country.

Say what you will about "the unwritten law," there is solemn warning in a code which provides that he who is mean enough to destroy what is more precious than life by that very act forfeits his own life. Humanity endures eternal protest against any theory which keeps one from killing the wolf that destroys the lamb.

The Supreme Court of Minnesota has decided that Jim Hill can issue all the new stock of the Great Northern Railroad he wants to—now—but must ask permission of the State railroad commission in the future. Perhaps when another issue of stock would be handy the court will find another loophole for the stock watering process.

It is true there is no lower viewpoint than the mere money value of an education. The average educated man earns \$1,000 per year. He works forty years, making a total of \$40,000 in a lifetime. The average day laborer earns \$1.00 per day, 300 days in the year, or \$300 per year. He earns \$15,000 in a lifetime. The difference between \$40,000 and \$15,000 is \$25,000. This is the minimum value of an education in mere dollars and cents. The intangible value of an education you gain cannot be measured in money.

FLORIDA PLUCK.

It may be said with impunity that no State in this great Union can boast of a people so thoroughly possessed of pluck and energy. No State in the Union has a more contented, a more prosperous or a more united people when it comes to putting a shoulder to the wheel of progress. Florida is proud of her industrious populace from Pensacola to Miami, from Fernandina to Key West.

But what has brought about these conditions? While we are blessed with the greatest and most diversified State in the Union, it cannot be altogether this, for what does it profit a community, however blessed with natural advantages, if these advantages are not transformed into resources?

The answer is plain, and from the adding up the deduction is at once recognized. It is the combination of the natural advantages which God has given us, combined with the energetic efforts of our people to develop them.

It's a hard matter to discourage a Floridian—in fact, it's an impossibility. By adversities in one way or another he may be crushed to earth temporarily, but he is bound to rise again, as has been demonstrated on many occasions, the most memorable of which was the great freeze of 1894-5, when magnificent orange groves, which it had required a life-time to acquire, were laid bare in one bleak night. What did the Floridian do then? The agricultural, horticultural and commercial interests of the entire State were distressingly demoralized; but the Floridian did not ask for outside aid. He went to work with a willingness and a determination to re-establish what it had taken him years to build, refusing outside aid which was kindly offered. The story can best be told of his achievements by a trip through this State at the present time, when one may see on every hand magnificent groves and farms, manufacturing enterprises, lumber and naval stores plants, and in fact all that would tend to show prosperity, with nothing to indicate that awful calamity of twelve years ago.

The Jacksonville fire is another demonstration of energy. Look backward a few years before that disastrous conflagration, than turn the searchlight upon the Jacksonville of today—the new Jacksonville, of which not only Floridians feel proud to honor, but upon which the whole country has turned its eyes.

Think of the great calamity which visited Pensacola, carrying with it a loss of millions of dollars. Pensacolians evidently remembered the adage that it's an ill wind which blows nobody good, and her citizens went to work to rebuild with a willingness. Look at Pensacola of today, and the reader will almost agree with his Pensacola brother in this time-worn adage.

In all, Floridians have the pluck which is bound to carry them through, as has been demonstrated in the past.

The anxiety of Banker Schiff and his friend Harriman and the other frenzied financiers of Wall Street, over "the present troubled position of affairs in financial markets" has been somewhat relieved by further loans from the United States Treasury to Wall Street banks, without interest, of course. The demand for aid from these corporation magnates who had so liberally contributed to Republican campaign funds was more than the Administration could resist.

Every time you mention Presidential timber, a lot of people begin to think about the big stick.

Another sign of spring. The Peary Arctic Club is preparing another expedition to the Pole.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CERRY & Co., Toledo, O.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

Hon. Frank Clark, Congressman from this district, desires an accurate list of all persons, whether widows of veterans or veterans, now living in Alachua county, who are now on the pension rolls of the United States. He sometimes has valuable information to communicate to federal pensioners, and would take great pleasure in doing so if he had their address. He wishes that each one who is interested will at once mail him their full name, number and date of certificate, amount of pension, company and regiment in which soldier served, war in which service was rendered, rank of soldier on whose account pension is received, whether white or colored, whether pension is being received under general laws or special act of Congress, and present age of pensioner. It will be to the interest of pensioners to furnish this information as soon as possible.

N. O. Nelson, a wealthy manufacturer of Saint Louis, has offered to take all children under the age of fourteen from the mills and factories of that city and place them in school. He agrees to pay one-half the wages earned provided the women's clubs of the city pay the other half. Such charity is deathless—it's record shall pass from breast to breast, down the generations. Carnegie, Rockefeller, Mrs. Russell Sage—the multi millionaires—are brain-recked over the problem of how to unload their millions. Nelson, of Saint Louis, can learn them the trick. And it means the raising of a monument more enduring than the costliest mausoleum or polished shaft. In an ever-widening and ceaseless influence it will abide when libraries and palaces and given over to the owls and the bats.

It was a little unkind of Secretary Taft to spring all this trouble in Ohio while Senator Foraker still had Brownsville on his hands.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00. J. S. Bodiford & Co., Special Agents.

LA GRIPPE

Pneumonia follows La Grippe but never follows the use of

FOLEY'S Honey and Tar

It stops the Cough and heals the lungs. Prevents Pneumonia and Consumption.

Dr. G. V. Vassar, of 187 Ogden St., Chicago, writes: "My wife had a grippe and it left her with a very bad cough on her lungs which Foley's Honey and Tar cured completely."

For Sale by J. W. McCollum & Co.

LINCOLN AND STEPHENS.

A Striking Instance of "Old Abe's" Kindness of Heart.

The Hampton Roads peace conference of 1865, at which Mr. Stephens, Judge J. A. Campbell and Mr. R. M. T. Hunter met Mr. Lincoln and Mr. Seward in an effort to establish peace between the north and south and so to put an end to bloodshed, had ended in failure. Mr. Lincoln and Mr. Stephens had met in 1847, when both were members of congress, and something very like warm personal friendship had developed between them. This was strengthened at Hampton Roads. When they came to say goodbye, the president of the United States remarked with feeling to the vice president of the Confederacy:

"Well, Stephens, there has been nothing we could do for our country. Is there anything I can do for you personally?"

"Nothing." Then the vice president's pale face brightened. "Unless you can send me my nephew, who has been for twenty months a prisoner on Johnson's island."

Mr. Lincoln's face also brightened. "I shall be glad to do it. Let me have his name." He took the name down in his notebook.

When he returned to Washington, he telegraphed to Johnson's island, directing that Lieutenant Stephens be put on his parole, with orders to report at once to President Lincoln in Washington.

An officer came into the prison and called out:

"Lieutenant John A. Stephens of Georgia!"

The lieutenant had no idea what was wanted of him. He thought he was being called out to be shot. He had been captured at the siege of Vicksburg and had been imprisoned five months in New Orleans and then carried to Johnson's island.

When he reported at headquarters, he was told that he was to report at once to President Lincoln. So he was driven across the ice on Lake Erie in a sleigh twenty miles to Sandusky and went on to Washington.

There at once he sought the president, and, having sent in his name, he was immediately ushered into Mr. Lincoln's presence. He found the president sitting on a table in a half reclining position and talking with Secretary Seward. Mr. Lincoln rose, shook his hand very cordially and said: "I saw your uncle, Hon. Alexander H. Stephens, recently at Hampton Roads."

Lieutenant Stephens had not heard of the peace conference, and this was his first direct news of his family since his imprisonment. President Lincoln continued:

"I told your uncle I would send you to him, lieutenant."

Naturally the lieutenant was deeply moved and grateful.

"You have the freedom of the city," Mr. Lincoln continued, "as long as you please to remain here. When you want to go home, let me know, and I will pass you through the lines."

The lieutenant's appreciation and joy can be imagined. Mr. Lincoln talked on pleasantly, telling him of the Hampton Roads conference, asking him questions and making the hour a memorable one in many ways.

The lieutenant remained in Washington about two weeks. Many old friends entertained him, and he was in a state of mind and body to set value on such a show of good will.

He recovered his strength rapidly, and when he went to Mr. Lincoln and told him he was ready to go to Richmond Mr. Lincoln gave him a letter and a pass through the Federal lines and then handed him his photograph, saying:

"You had better take that along. It is considered quite a curiosity down your way, I believe."

Lieutenant Stephens went on to Richmond, reporting for duty, and, though privileged to make a visit to his relatives in Georgia and longing to see them, proceeded to West Virginia, where he served on the staff of General Gordon. Of course he had been duly exchanged, the Federal officer who had been released going north, carrying with him memories of kindnesses and courtesy shown him in Richmond. —Myra Lockett Avery in Century.

Innocuous Vanity.

As gold is never put into circulation without some alloy, so perhaps for this world's use some alloy is needed in the gold of character. The only questions are, What alloy and how much? I shall try to answer the question as to kind and leave to individual discretion the question as to quantity. A great actor once said that all men have vanity, but some conceal it more successfully than others. If vanity be a universal trait, we may take it as that alloy which is necessary to our active and circulating usefulness. It is decried by all moralists, preached against in all pulpits and everywhere believed to be as undesirable as it is universal. Nevertheless, in youth at least, a certain degree of it may be necessary. Vanity is like the kindly cloud which shelters us from the all-piercing and too brilliant sun of truth, for it may be doubted whether any of us can bear

All careful women use

HERBINE

Woman who suffer from severe headaches, and all diseases due to a torpid liver, should not fill their stomachs with calomel and other drugs.

HERBINE QUICKLY CURES Biliousness, Constipation, Chills and Fever, Dyspepsia, Malaria and all Liver Complaints.

Mrs. C. D. Philley, Marble Falls, Tex. writes: "I find Herbine the best liver corrective I ever tried. It has done my family and myself a world of good. I recommend it to my friends."

the truth unveiled. The melancholy Dane who had revealed to him unqualified truth, both as regards this life and the next, was not by that revelation incited to action. Hamlet found the truth withering, not stimulating; it paralyzed rather than nerved. And it may be so with all truth. Most of us are ordinary people, but happily most of us do not find this out, at least not in our first youth.—Lippincott's.

Just the Thing.

"May I hold your horse, sir?"

"He won't run away."

"That's the kind of horse I want to hold."—New York Press.

Stomach and Liver Trouble Cured.

Orino Laxative Fruit Syrup cures stomach and liver trouble as it aids digestion, and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and sick headache and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

One Thing at a Time

"I can't afford to advertise on a large scale," said a merchant lately, "and with my varied stock I wouldn't know where to begin on a small scale."

It is a common fallacy that the advertising must cover the whole stock.

In point of fact it never does, even with the most lavish advertisers, and, if it did, the result would be a jumble of profligacy. The true policy is to select one article at a time—something moderately priced and meeting the want of the day—and push that at the people.—Philadelphia Record.

Advertise in THE SUN

OHIO NEGRO GIVEN PLACE.

Crowell Appoints Ralph Tyler Auditor of Treasury Department. Washington, April 12.—The president has appointed Ralph W. Tyler, of Columbus, O., to be auditor of the treasury for the navy department.

Mr. Tyler is the man who it was announced had been considered by the president for a federal position in the department of the interior, particularly that of surveyor general at Cincinnati. He succeeded William W. Brown, who has been appointed to the position of special attorney in the department of the interior.

Although it is understood that he was not indorsed for this particular place, it is said that both Senator Foraker and Dick Indosed Tyler for various positions. The question of giving Tyler a federal office has been under consideration by the president practically all winter. He is one of two negroes whom the president originally had in mind upon one of whom he desired to bestow some federal office. The position of surveyor of customs and collector of internal revenue at Toledo were among those considered. The position in Ohio was thoroughly canvassed, but there was decided opposition to giving a negro such a prominent position as those under consideration. Tyler has been identified with newspaper work in Ohio and has held a position on the Columbus Dispatch.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as nothing else will. Oscar Newman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and have great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." J. W. McCollum & Co.

Confesses to Embezzlement.

Indianapolis, Ind., April 12.—Confessing to the embezzlement of more than \$2,400 from the Wells-Fargo express company, of which he formerly was an employe, Rudolph Crowell, 28 years old, of Little Rock, Ark., gave himself up to the police yesterday and turned over to them evidence which substantiated his confession. Crowell walked into the police station and told his story of the robbery of the express packages, which took place in Little Rock on March 27.—Crowell drove to the police station in a carriage from a home where he had been stopping since March 7.

Cured Hemorrhages of the Lungs.

Several years since my lungs were badly affected that I had many hemorrhages," writes A. M. Ake of Indianapolis, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as good as a bullet. I recommend it in all stages of lung trouble." Foley's Honey and Tar stops the cough, heals the lungs, and prevents pneumonia results from a cold. Refuse substitutes. J. W. McCollum & Co.

Vanderbilt Co. in Receiver's Hands.

Atlanta, April 12.—W. W. Sumner, of Tallapoosa, Ga., has been appointed receiver for the Vanderbilt Coal-Mining and Southwestern Railway company, a corporation which was chartered under the laws of Alabama, but partly operates in Georgia, and of which George O. Vanderbilt, of Princeton, N. J., is one of the chief promoters. It is alleged that the petition for a receiver, which was filed by Jesse Barlow and F. A. Barlow, that the defendant company is insolvent and owes \$100,000.

Don't Put Off

For tomorrow what you can do today. If you put off buying a bottle of Chamberlain's Snow Liniment, when that comes you won't have any. Buy it today. A positive cure for rheumatism, burns, cuts, sprains, contracted muscles, etc. T. S. Graham, of Grove, Ark., writes: "I wish to thank you for the good results I received from Snow Liniment. It positively cured me of rheumatism after several had failed." Sold by W. M. Johnson.

To Augusta, Ga.

Daily Pullman buffet sleeping car leaves Jacksonville, Fla., at 8:05 p. m., and arrives at Augusta, Ga., at 7:40 a. m. For full particulars see the Augusta, Ga., agents or write to Frank G. Johnson, District Passenger Agent, Atlantic Coast Line, Jacksonville, Fla.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them *Remedies of Known Composition*.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the most searching scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, bilious liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the woman's functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

Real Use of the Bee's Sting.

"The bee's sting is a trowel, not a rapier," said a nature student. "It is an exquisitely delicate little trowel with which the bee finishes off the honey cell, injects a little preservative inside and seals it up. With its trowel-like sting the bee puts the final touches on the dainty and wonderful work. With the sting it pats and shapes the honey cell, as a mason pats and shapes a row of brick. Before sealing up the cell it drops a wee bit of poison into the honey. This is formic acid. Without it honey would spoil. Most of us think the bee's sting, with its poison, is a weapon only. It is a weapon secondarily, but primarily it is a magic trowel, a trowel from whose end, as the honey cells are built up, a wonderful preserving fluid drips.

The Weathering of Coal.

It is probably not generally known that coal exposed to the atmosphere undergoes chemical changes greatly affecting its quality. Moisture is the most powerful agent in producing such change. It is a matter of common knowledge among men engaged in the making of illuminating gas that coal which has been stored for a long time experiences a loss of hydrocarbons, and the effects of the change are shown in a diminution of the volume of the coal and in a loss of illuminating power in the gas produced from it. Such chemical changes occurring in great masses of coal may even produce sufficient accumulation of heat to cause spontaneous combustion.

Mercury and Air.

The reason that mercury rises and falls in the barometer is that dry air is heavy, moist air is light, and the column of mercury is affected by atmospheric pressure. The tube of a barometer being open at the bulb end, the air when moist cannot support the weight of the mercury. When the air is dry, the mercury cannot resist its weight; hence the rise and fall in dry and wet weather.

Good Judgment

Is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby—the best worm medicine ever offered to mothers. Many, indeed, are the sensible mothers who write, expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge. Sold by W. M. Johnson.

NOTICE.

Notice is hereby given that application will be made to the Legislature to convene at Tallahassee, Fla., in April, 1907, for amendment of Chapter 5497, Laws of Florida, Acts of 1905, being entitled "An act extending and enlarging the territorial limits and the powers of the city of Gainesville, a municipal corporation organized and existing in Alachua county, Florida, and providing for the exercise of those powers."

Notice.

Notice is hereby given that application will be made to the Legislature to convene in April, A. D. 1907, for an amendment to charter of the town of Alachua, situated in the county of Alachua, State of Florida.

One of the handsomest delivery wagons seen in this city for some time is that recently received by John Seagle from Cincinnati. This wagon was built especially for Mr. Seagle, after his own design, and is very conveniently arranged for the handling of furniture.

For Sale—One good elevator in splendid order. On account of our moving to new quarters we will not need it and will offer it at a great reduction. It cost \$150 when new and is just as good today. Saunders & Earle.

Receiver Shields Warren of the United States land office has received from the general land office of the United States government a fine Remington typewriter. The machine is of the very latest model, a No. 7, and is the pride of Receiver Warren's office.

J. B. Rawlings of Jacksonville, representing the Florida Chair Factory, was in the city yesterday in the interest of his firm. This concern, which is located in Jacksonville, is one of the leading manufacturing industries in the State, and has proved quite successful since its establishment about two years ago.

In its write-up of the retiring officers of the Board of Public Works yesterday, The Sun announced that the retiring members were S. J. Thomas and W. B. Taylor. This was a mistake, as it was Messrs. Thomas and W. N. Wilson. The error occurred on account of the confusion of Mr. Taylor's candidacy, together with the fact that he was a retiring member of the City Council.

NEW MARSHAL IS BUSY.

First Arrest Was a Cow Trespassing On a Private City Lawn.

Marshal Benj. T. Arnow, who was sworn in Thursday afternoon and assumed the duties of the office immediately, was busy during Thursday night and Friday.

The first arrest made by the new officer was a fine cow belonging to J. B. Padgett, which in some manner had made her escape from home, and was peacefully grazing upon the lawn of one of our prominent citizens within a stone's throw of the mayor's home. The animal was placed in "cow jail," along with fourteen others which Officer Arnow arrested during the night, and her "fine" was paid by her owner the following day.

Marshal Arnow states that he took into custody fifteen cows during the night within four blocks of the court house.

HELPING HANDS SOCIETY.

Ladies Served Refreshments Friday With Gratifying Success.

The ladies of the Pastor's Helping Hands Society of the Presbyterian church served refreshments Friday afternoon and evening in the Marcus Endel store, corner West Main and Liberty streets. The refreshments comprised delicious strawberry ice cream, assorted cakes of the finest kind, and coffee. The affair was well patronized, quite a neat sum was realized, and the ladies desire to express their sincere thanks to a generous public for making the function a success both socially and financially.

Miss King Entertains.

Miss Beale King entertained the Young Ladies' Card Club and their friends at the elegant home of Mr. and Mrs. J. D. Stringfellow, West Liberty street, Thursday evening, which was marked as one of the most enjoyable social functions of the season.

Progressive whist was the game. There were ten tables, and the contest was waged with an interest and determination which gave it a tinge of play rivalry and demonstrated the fact that those engaged were well versed and efficient in the game.

The gentleman's prize was won by Dr. D. B. Morris, while the honor for the ladies fell to Miss Carrie Miller. Delicious refreshments of ice cream, cake and coffee, were served.

The young people in attendance are under many obligations to Miss King for the enjoyment of the evening.

A Pleasant Evening.

At her home on West McCormick street Wednesday evening, Mrs. T. W. Pitts tendered to her class in elocution, vocal and instrumental music and physical culture a delightful entertainment, which was highly enjoyed. Through the courtesy of Mrs. Pitts a few intimate friends of the class were invited, and all present enjoyed the fine program, which was of a literary and musical nature. Delicious refreshments were served, and at a late hour the class and guests dispersed under many obligations to Mrs. Pitts and her clever little daughter, Miss Outlee, for their hospitable treatment of the evening.

Mrs. McCollum Entertains.

Mrs. J. W. McCollum entertained a limited number of her lady friends informally at cards Wednesday morning. During the morning delicious refreshments were served, and it is needless to add enjoyed. Those present spent a most delightful morning.

Bert Arnold has returned to Tampa, after spending three weeks here on business. Mr. Arnold, who is an old Gainesville boy, has associated himself in the real estate business with Mr. Davis, the firm name being Davis & Arnold. They were engaged here in working up the sale of lots in College Park, and were very successful, due both to the hustling qualities of the young men composing the firm and their clever manner of advertising, of which Mr. Arnold is the originator. As an ad. writer he deserves the blue ribbon.
